BENEFITS OF MEMBERSHIP

The Protein Society is the leading international society devoted to furthering research and development in protein science. The purpose of the Society is to provide national and international forums to facilitate communication, cooperation and collaboration with respect to all aspects of the study of proteins. In support of these goals, the Society also publishes *Protein Science*, the premier journal in the field.

The Protein Society members represent academia, industry, government and non-profit institutions from around the world. Members have an opportunity to actively participate in the emerging fields of protein science including proteomics, bioinformatics, structural biology, and computational biology as they pertain to proteins at the molecular and cellular level.

NEW BENEFITS BEING OFFERED THIS YEAR

- Corresponding authors are entitled to receive **ONE FREE 4-COLOR FIGURE** per article in *Protein Science*
- Reduced Open Access fee
- Discounts on books published by John Wiley & Sons, Inc.
- Selected freely available content from the Wiley portfolio via the web
